ACKNOWLEDGEMENT

“For any successful work, it owes to thank many”

No one walks alone & when one is walking on the journey of life just where you start to thank those that joined you, walked beside you & helped you along the way.

Over the years, those that I have met & worked with have continuously urged me to write a book, to share me knowledge & skills on paper & to share my insights together with the secrets to my continual, positive approach to life and all that life throws at us. So at last, here it is.

So, perhaps this book & its pages will be seen as “thanks” to the tens of thousands of you who have helped to make my life what is today.

Hard work, knowledge, dedication & positive attitude all are necessary to do any task successfully but one ingredient which is also very important than others is co-operation & guidance of experts & experienced person.

All the words in lexicon futile & meaningless if I fail to express my sense of regard to my parents & sister for their sacrifices, blessings, prayers, everlasting love & pain & belief in me.

I also want to thank my friend **Ankit, Ankur & Sonal** for their support.

I solely claim all the responsibility for any shortcomings & limitations in this book.

Introduction of Facebook

Facebook was founded by 2004 by Harvard student **Mark Zuckerberg** and originally called thefacebook. It was quickly successful on campus and expanded beyond Harvard into other Ivy League schools. With the phenomenon growing in popularity, Zuckerberg enlisted two other students, Duston Moskovitz and Chris Hughes, to assist. Within months, thefacebook became a nationwide college networking website.

Statistics

- **People on Facebook**
- More than 800 million active users
- More than 50% of our active users log on to Facebook in any given day
- Average user has 130 friends

Activity on Facebook

- More than 900 million objects that people interact with (pages, groups, events and community pages)
- Average user is connected to 80 community pages, groups and events
- On average, more than 250 million photos are uploaded per day

Global Reach

- More than 70 languages available on the site
- More than 75% of users are outside of the United States
- Over 300,000 users helped translate the site through the translations application

Platform

- On average, people on Facebook install apps more than 20 million times every day
- Every month, more than 500 million people use an app on Facebook or experience Facebook Platform on other websites
- More than 7 million apps and websites are integrated with Facebook

Mobile

- More than 350 million active users currently access Facebook through their mobile devices
- More than 475 mobile operators globally work to deploy and promote Facebook mobile products

How to Find Your Facebook Number

Go to facebook.com and log in.

Click on “**Profile**” or if you’re using the new version, click on your name.

The URL now contains something that ends with id=123456789. The number at the end is your profile ID

Example My Profile ID is <http://www.facebook.com/100000287487742>

ID numbers 1-3 were tests that Mark Zuckerberg used to initially test Facebook; the profile pages no longer exist.

The first real Facebook user starts at ID #4. It belongs to — you guessed it — Mark Zuckerberg.

Find First 10 People to Sign Up For Facebook.

Mark Zuckerberg

Original Profile ID: <http://www.facebook.com/profile.php?id=4> (IDs 1-3 may have been associated with Zuckerberg but the profile pages no longer exist).

How he knew about Facebook: Founder of Face Book.

Mark Zuckerberg

Lives in Palo Alto, California Knows English, Mandarin Chinese From Dobbs Ferry, New York Born on May 14, 1984

How to Access Facebook from Gmail

Login Your Gmail Account

To add Facebook, Twitter, in Gmail you have to enable “**Add URL by Gadgets**” functionality in Gmail from **Gmail labs**.

Go to Labs

A screenshot of the 'Enabled Labs' page. It shows a section titled 'Add any gadget by URL' by Dan P and Dong C. There are 'Enable' and 'Disable' buttons next to a green arrow icon. Below the title, it says: 'Adds a "Gadgets" tab to Settings, where you'll be able to specify the URL of any gadget. This gadget will show in a box in the left column.' At the bottom right, there's a link 'www.hackingarticles.in'.

When you click on Save Changes it reloads Gmail again. Now click on settings.

A screenshot of the 'Settings' page in Gmail. The 'Gadgets' tab is selected. The top navigation bar includes 'General', 'Labels', 'Accounts and Import', 'Filters', 'Forwarding and POP/IMAP', 'Chat', 'Web Clips', 'Labs', and 'Gadgets'. Below the navigation bar, the 'Gadgets' section header is shown, along with the text 'www.hackingarticles.in'. It says 'You have no gadgets installed.' and has a form field 'Add a gadget by its URL:' with an 'Add' button. A large green arrow points to the 'Add' button. A note at the bottom states: 'Heads-up: If you add a Gadget that uses OpenSocial, it'll have access to your Google public profile and friends list.'

Now from here we can add Facebook, Twitter, to Gmail. If you want to add Facebook then copy and paste

"<http://hosting.gmodules.com/ig/gadgets/file/104971404861070329537/facebook.xml>

<https://twittergadget.appspot.com/gadget-gmail.xml>

Gadgets **www.hackingarticles.in**

You have no gadgets installed.

Add a gadget by its URL:

Gadgets **www.hackingarticles.in**

 **Facebook** by iBuno
<http://hosting.gmodules.com/ig/gadgets/file/104971404861070329537/facebook.xml>
Add the Facebook Gadget to your iGoogle homepage and get all your friends' updates in real time, set your Status and perform most tasks directly from iGoogle. It works with most browsers and it can expand to full-screen (canvas) view.

Add a gadget by its URL:

A screenshot of a Gmail inbox. The sidebar shows the Mail tab selected. There are two messages in the inbox: one from 'Raj Chandel' with the subject 'Sachin Tendulkar Fans Must Join , click here' !!!' and another from 'Make Use Of' with the subject 'Cool Websites and Tools [March 26th] | MakeUseOf'. Both messages have small profile pictures next to them. The inbox interface includes standard Google search and filter buttons at the top.

How to Download Facebook in Your PC

Log-in to your Facebook account.

Click on the **Home** dropdown and then **Account Settings**.

On the Account Settings page, right below you will see a link that says – **Download a copy of your Facebook data**.

General Account Settings

Name	Raj Chandel	Edit
Username	You have not set a username.	Edit
Email	Primary: rrajchandel@gmail.com	Edit
Password	Updated about 6 months ago.	Edit
Networks	No networks.	Edit
Linked Accounts	You have 0 linked accounts.	Edit
Language	English (US)	Edit

Download a copy of your Facebook data.

Click on the large green **Start My Archive** button.

Download Your Information

Get a copy of what you've shared on Facebook.

Easily download and browse through a personal archive of your Facebook photos, posts and messages. Learn more about downloading a copy of your information.

[Start My Archive](#)

What's in your archive?

- Any photos or videos you've shared on Facebook
- Your Wall posts, messages and chat conversations
- Your friends' names and some of their email addresses

(Note: We'll only include email addresses for friends who've allowed this in their account settings.)

What's not in your archive?

- Your friends' photos and status updates
- Other people's personal info
- Comments you've made on other people's posts

Caution: Protect your archive

Your Facebook archive includes sensitive info like your private Wall posts, photos and profile information. Please keep this in mind before storing, sending or uploading your archive to any other site or service.

A small notification pops up that basically says that Facebook will send you the download link to the email address associated with your Facebook account when the backup is ready.

Facebook starts generating your archive. You can expect to receive a download link in your email account associated with Facebook when the archive is ready for download.

Click on the link sent to your email, enter your Facebook password

Re-Enter Your Password

Your archive is ready to download.

Enter Password:

Continue

Click on the Download button to download the backup zip file that has all your Facebook profile data.

Download Your Information

Get a copy of what you've shared on Facebook.

This is a copy of all of the personal information you've shared on Facebook. To protect your info, we'll ask you to re-enter your password to confirm that this is your account. Learn more about downloading a copy of your information.

Download Archive

(Your download is about 26 MB)

Caution: Protect your archive

Your Facebook archive includes sensitive info like your private Wall posts, photos and profile information. Please keep this in mind before storing, sending or uploading your archive to any other site or service.

Import Your Blog in Facebook

If you already keep a blog of your own, you definitely don't want to repeat yourself on every social networking Web site you join. Facebook lets you import your own external blog as notes on your profile, so you can keep your friends up-to-date without repeating yourself.

- Login Facebook
- <http://www.facebook.com/editnotes.php?import>

Import a Blog

Import an External Blog

You can import posts from one external blog so that they appear along with your notes. Facebook will automatically update your notes when new posts are made. Facebook will automatically update your notes when new posts are made. You cannot edit these imported posts.

Please only import your own blog. If you import too many blog posts in a day, you could be blocked from writing or importing new notes.

You are not importing from an external blog to your notes.

Enter a URL below to import to your notes.

Web URL:

By entering a URL, you represent that you have the right to permit us to reproduce this content on the Facebook

Start Importing

Type in the URL of your blog

At the bottom of the preview, click on “**Confirm Import**”

This is a preview of your imported blog.

We read your feed at <http://rajhackingarticles.blogspot.com/feeds/posts/default?alt=rss>

If you confirm this import, we'll check the feed every couple of hours for new posts you've made, and add anything we find to your Facebook notes.

Confirm

Cancel

Your blog is now available to all your Facebook friends whenever you post new articles on your blog, they will automatically appear on your Wall and in your friends.

How to Find if Somebody Hacked your Facebook Account

Login Facebook Click on **Account Settings**.

Under **Security tab**, you can see your all login information.

A screenshot of the Facebook 'Active Sessions' section under the 'Security' tab. It displays five recent login activities. Each activity is listed with the last accessed time, location (approximate), and device type, followed by a 'End Activity' link.

Last Accessed	Location	Device Type	Action
Today at 3:11pm	Delhi, DL, IN (Approximate)	Chrome on Win7	End Activity
Wednesday at 4:47pm	Delhi, DL, IN (Approximate)	Firefox on Win7	End Activity
Wednesday at 11:51am	Delhi, DL, IN (Approximate)	Chrome on Win7	End Activity
Tuesday at 9:53pm	Mumbai, MH, IN (Approximate)	Chrome on Win7	End Activity

If you notice any unfamiliar devices or locations, click 'End Activity' to end the session.

How to Change Your Name on Facebook

Go to Facebook → Account → **Account Settings**.

Click "**change**" under the name heading and update your name. You may also add an alternate name (like your nickname) if more people know you by that name.

Account Settings

The screenshot shows the "Name" section of the Account Settings page. It includes fields for First name (Raj), Middle name (Optional), Last name (Chandel), and a "Display as:" dropdown set to "Raj Chandel". Below these, there's a note about confirmation and a 24-hour delay. Further down, there's a section for an "Alternate name" (Optional) with a checkbox for including it on the profile. At the bottom, there's a password input field and buttons for "Save Changes" and "Cancel".

We confirm all name changes before they become viewable in your profile. This usually takes 24 hours.

Alternate name: [?]
 Include this on my profile

To save these settings, please enter your Facebook password.

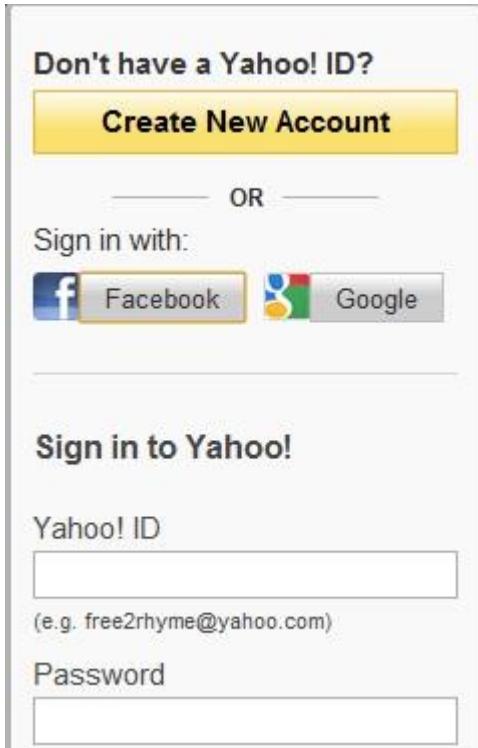

Password:

Save Changes **Cancel**

However, please note that Facebook will manually verify your name changing request before updating the one mentioned in your profile.

Export Email Addresses of your Facebook Contacts

Go to address.yahoo.com and click the Facebook icon

Click on **Allow**

- **Hacking Group**(Open) edit

Email opt out: Opt out of receiving future emails from Facebook
Note: Even after you deactivate, your friends can still invite you to events, tag you in photos, or ask you to join groups. If you opt out, you will NOT receive these email invitations and notifications from your friends.

Delete applications: Permanently delete all applications for which I'm the only developer
Note: You are listed as the only developer for the following Platform applications. You must either delete or transfer ownership of them before deactivating.

- Unnamed App (236508703062629) edit

Confirm **Cancel**

If you no longer want to receive any invite, notification of friend requests, tag in photos, or ask you to join groups from Facebook, click and tick the check box of Opt out of receiving emails from Facebook.

Click on **Deactivate** button.

Once the Facebook account is deactivated, the following message will appear:

Your Facebook account has been deactivated.

How to Download Facebook Photo Album

Download your Facebook Album Visit www.facebook2zip.com

1. Login

2. Choose a friend

3. Choose the albums

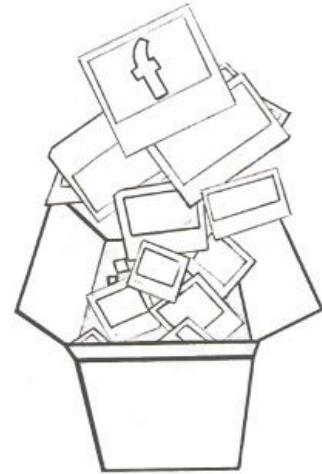

4. Download

Facebook2zip is a free service that allows you to backup your facebook profile
downloading all your photos into a single zip archive!

You can also download all of your friends' photos in the same way!

Try it! It's free.

 Login with Facebook

Now click on "Login with Facebook" button on the page and log in your Facebook account in the popup. Now grant permission to that app.

Request for Permission

F4cebook 2 Zip is requesting permission to do the following:

 **Access my basic information**
Includes name, profile picture, gender, networks, user ID, list of friends, and any other information I've made public

 **Access my photos**

 **Access information people share with me**

How to Show Who Is Online On Facebook While You Are Offline Mode

First you will go to the login the Facebook after you can go the offline chat in Facebook account.

Go to <http://www.facebook.com/onlinenow> page.

Online Now

Like

Go to App

App

Basic Information

Description of Application

Why be bothered by chats when all you want to do is quickly see who is on Facebook right this second? Very simply use this application to see which of your friends are online without turning on Facebook Chat. No strings attached.

Online Now does not affect your Facebook Chat online status. If you want to appear "invisible," turn off Facebook Chat and use Online Now to see who's online. You can only chat with your friends if you turn on Facebook Chat and appear online.

To turn off Facebook Chat and appear offline, click the icon to the right of the notifications icon in the bottom right of your screen and click "Go Offline" in the popup box. If you do not see icons on the bottom right of your screen, try using Firefox or Safari.

Click on Allow

Request for Permission

Online Now is requesting permission to do the following:

Access my basic information

Includes name, profile picture, gender, networks, user ID, list of friends, and any other information I've made public

Access information people share with me

Online Presence

Colored text, bold, underline, smiles in Facebook Status

SocialPlus! is an extension for Facebook, it adds new features that allow you to create your own Facebook customized according to your tastes, desires...

First Download the Social plus Plugin from <http://www.social-plus.net>

The screenshot shows the official website for SocialPlus!. At the top, there's a navigation bar with links to Home, News, Download, Features, and Help. Below the navigation, there are language selection buttons for English, French, and German. The main content area features a large heading "SocialPlus! Download !!". Underneath, there are three main sections: "Finally say 'I dislike'!", "Nudge in chat", and "Téléchargement des vidéos". Each section has a brief description and a link to "Other features". To the left, there's a preview of the Facebook status update interface with various text formatting options like bold, italic, underline, and smileys. A prominent "Download 2.6 Stable" button is located at the bottom right.

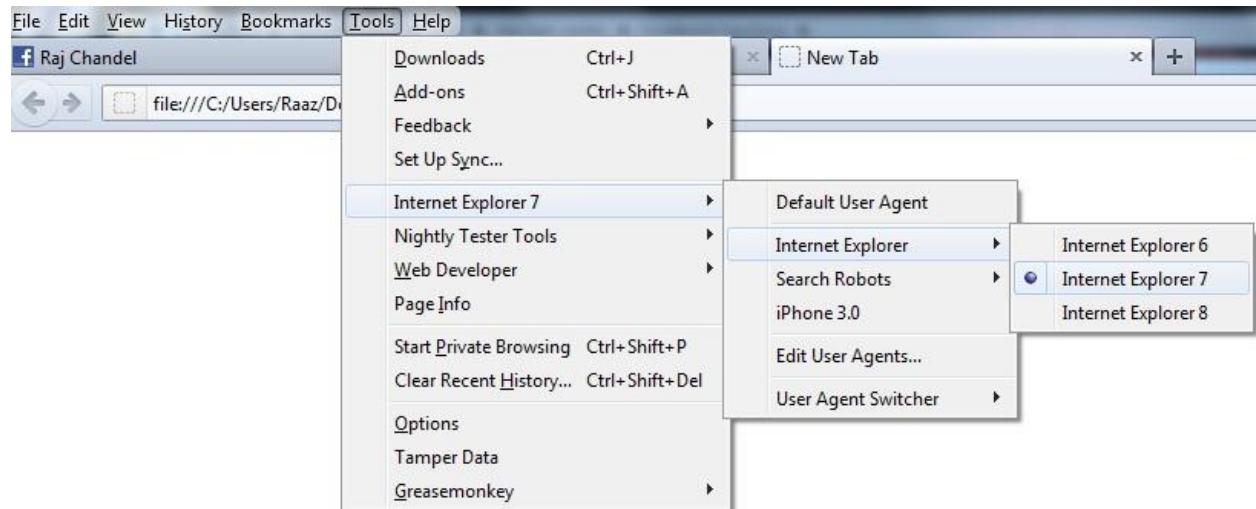

How Disable Facebook Timeline

First Download User Agent Switcher from

<https://addons.mozilla.org/en-US/firefox/addon/user-agent-switcher/>

Now go to Tools menu and select **Internet explorer 7**

How to Disable Public Search of Your Facebook Profile

Login Facebook.com then Go to Account> **Privacy Settings**

Click on Edit your settings under **Apps and Websites** In the bottom look for Public Search

Apps and Websites
Control what gets shared with apps, games and websites. [Edit Settings](#)

Click on Edit Settings **Uncheck the Enable public search.**

Public search Show a preview of your Facebook timeline when people look for you using a search engine. [Edit Settings](#)

[◀ Back to Apps](#)

Public search Public search controls whether people who enter your name in a search engine will see a preview of your Facebook timeline. Because some search engines cache information, some of your timeline information may be available for a period of time after you turn public search off. See preview

[Enable public search](#)

How to Publish your Empty Status

Login in Your Facebook than click on **update status**

To post an empty status update write (or copy and paste) the following code: **@[2:2:]**

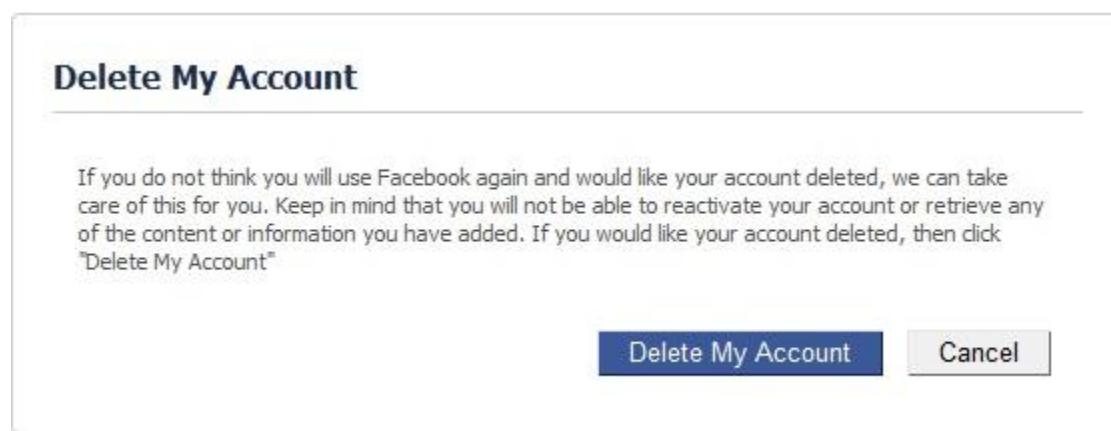

How to permanently Delete Facebook Account

Login Facebook.com

How to Schedule Facebook Messages

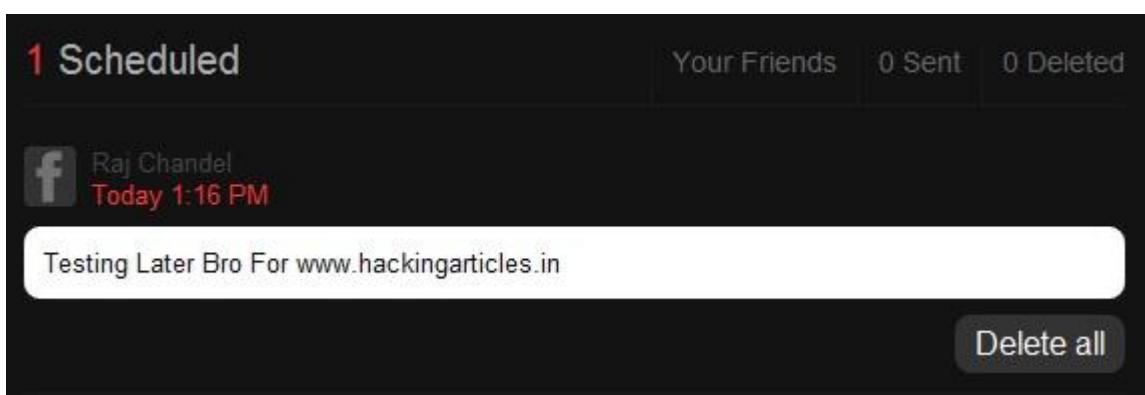

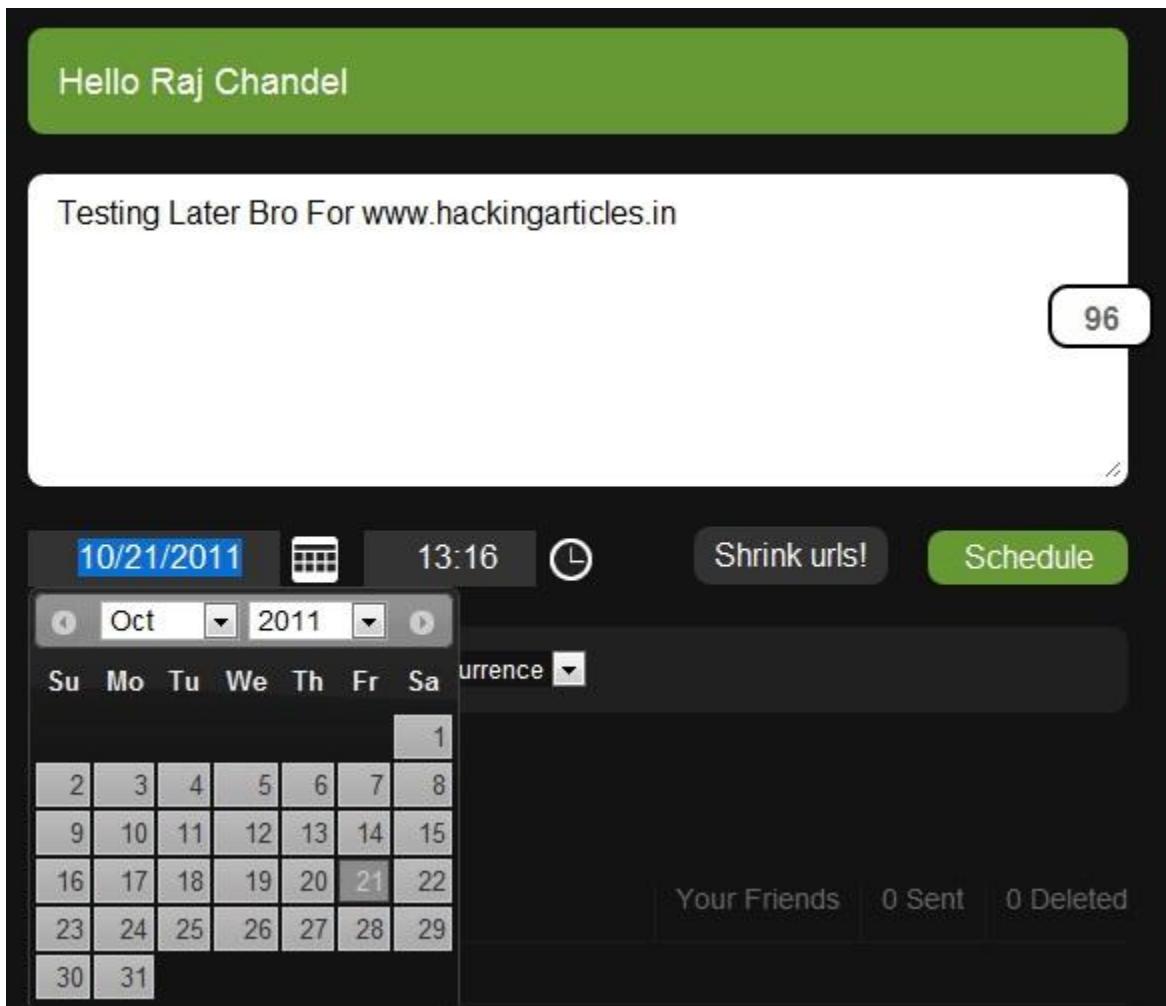

Sendible

The screenshot shows the Sendible software interface. On the left is a sidebar with links: Compose, Inbox (0), Pending (1), Drafts (0), Mentions, Reviews, Feeds, Search, Sent, Bounced, Calendar, and Address Book. The main area is titled "Compose Message" and asks "What kind of message will you be sending?". It lists options: Facebook post (selected), Email (Raj Chandel), SMS Text (0.0 tokens), Social Network Message, and Group Message. Below this are buttons for Subject or Title, URL, Photo or File, Past Files..., Tags, Templates..., Merge Tags..., eCards..., Scheduling, and Toggle Editor. A "Send" dropdown is set to "At a specific time". The "When" section shows a date and time picker set to October 21, 2011, at 11:13 AM. A "Repeats" field is set to "None". At the bottom is a rich text editor toolbar.

www.sendible.com

Later Bro

The screenshot shows the Later Bro website. The main heading is "Later Bro" with the subtext "Send Twitter or Facebook status updates later.". Below this are two "Login / signup with" buttons: one for Twitter (blue bird icon) and one for Facebook (blue 'f' icon). A note below the buttons states: "No need to register, we use Twitter or Facebook to validate your account. We don't store your password!!". Another note below the note says: "You can schedule recurring Facebook updates or schedule tweets from multiple Twitter accounts!".

How to Update Facebook without Using Facebook

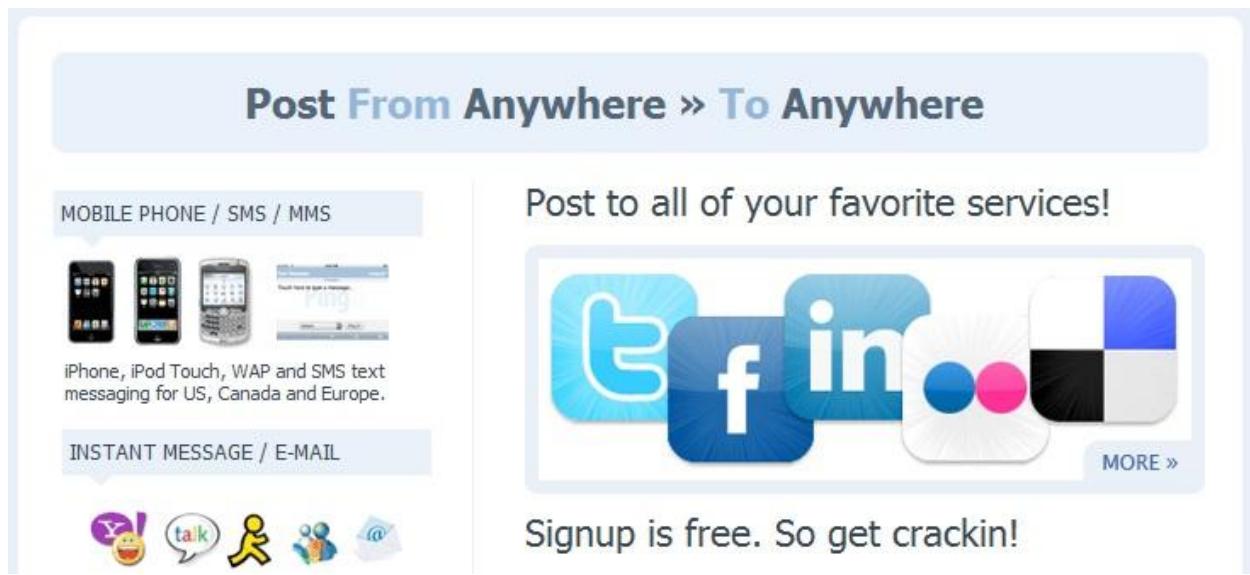

Hello Text

The screenshot shows the Hello Text mobile application interface. At the top, there are 'Sign in' and 'Sign up' buttons, along with social media integration links for Facebook and Twitter. The main slogan 'All your socials In one place...' is displayed. Below it is a green 'Get Started – it's Free' button. The central part of the screen shows a smartphone displaying the app's home screen with four main icons: 'Post', 'Doodle', 'My Feed', and 'Networks'. A second smartphone shows a post being updated. To the right, a third smartphone displays a keyboard and a message input field. At the bottom, there are download links for the 'App Store' and 'ANDROID'.

www.helloctxt.com

Ping Fm

The screenshot shows the Ping Fm website. The main headline is 'Post From Anywhere » To Anywhere'. On the left, there are sections for 'MOBILE PHONE / SMS / MMS' showing icons for various devices like iPhone, iPod Touch, and BlackBerry, and a note about text messaging for US, Canada, and Europe. Below that is an 'INSTANT MESSAGE / E-MAIL' section with icons for services like Yahoo!, AOL, and Gmail. On the right, there is a large callout box titled 'Post to all of your favorite services!' containing logos for Twitter, Facebook, LinkedIn, and Google+. A 'MORE' link is at the bottom right of this box. Below the callout, the text 'Signup is free. So get crackin!' is displayed.

www.ping.fm

How to be notified when a friend changes jobs

The image shows the Career Notify logo with the tagline "fastforwardingrecruitment". It includes social sharing icons for Facebook, Twitter, and LinkedIn, along with a "share with friends" button.

Email alerts when your contacts change job.

Receive an email when your friends or contacts get a new job, promotion or resign.

- 1** Anonymously track high value candidates and keep up-to-date about their career.
- 2** Beat your competitors by finding out about the best talents from Facebook first.
- 3** Be informed of when a target is hired by a competitor or resigns from their job.

www.careernotify.com

How to be notified when a friend changes relationship status

The page features a red bell with a red glow around it, labeled "BREAK-UP ALERT". To the left, text reads: "Break-Up Alert is a fun and easy way to make sure you never miss a chance at your dreams." Below that is a smaller text: "Just set your Watch List to the Facebook friends you've had your eye on and get notified privately if their love life goes through a chance." A "Login with Facebook to Get Started" button is at the bottom left, and a circular badge says "100% Discreet & Confidential".

Capture the Wisdom of Your Social Network

The screenshot shows a dark-themed web interface for 'Wisdom beta'. At the top, there's a navigation bar with a tree icon, the word 'Wisdom' with a dropdown arrow, and a 'Help' button with a dropdown arrow. Below the header, a banner says 'Thank you for signing up! Your complete reports will be available within 24 hours.' A 'Feed' section is displayed with a green icon. Below it is a table with columns: Friend, Post, Comments, and Likes. The table lists several posts from friends, including Indrajeet Yadav, Gavrill Lesiah N, Chijioke Kingsley Izuchukwu, Manish Shahi, Amol Wagh, Raj Chandel, and another entry from Raj Chandel.

All	Popular	Moods	Romance	Family	Health	Travel	Pray	Career	Moving	Car
Friend	Post	Comments		Likes						
Indrajeet Yadav	prince of bollywood..	Jan 03		0	0					
Gavrill Lesiah N	A mother is 21 yrs older than the child. 6 yrs from now the mother will be 5 times as old as the child. Q. Where is the father now? Solution: Mother(M) is 21 yrs older than Child(C) M=C +21 In 6 yrs, Mum will be 5 times older : M+6= (C+ 6)* 5 Hence, C+21 +6= (C+ 6)*5C+27 = 5C +30-3= 4CC=- 3/4 The child is -3/ 4 yrs old, that is, it will be born in 9 mnths Thus.. by mathematical deduction.. right now the father is on top of the mother.	Jan 03		3	3					
Chijioke Kingsley Izuchukwu	Just back from beach. Chaii...see flexin. How av y'all been today??	Jan 03		0	0					
Manish Shahi	Check if a friend has deleted you http://tinyurl.com/6qhqmqtq	Jan 03		0	0					
Amol Wagh	Cool Digital Camera With Wi Fi !	Jan 03		0	1					
Raj Chandel	http://t.co/wqJC0Qc5 http://t.co/NQQkfhd	Jan 03		0	0

Facebook Bookmark

The screenshot shows the homepage of Utopic, a bookmarking service. The main headline is 'Never lose a bookmark again' with the subtext 'Saving links made easier. Searching even more so.' Below this, there are three icons: a heart for collecting favourites, a magnifying glass for browsing saved items, and a star for discovering related items from trusted people. A large green button says 'Start bookmarking' with the note 'connect with Facebook'. To the right, there's a smaller screenshot of the Utopic interface showing a list of videos and music from YouTube, including titles like 'Japanese game show Up the Stairs', 'Cypress Hill - (Rap) Superstar', and 'ABG Theme - Pendulum Remix (3 min track with fade out...)'. There's also a small 'UKF' logo.

www.utopic.me

Monitor Your Child Facebook Activity

The screenshot shows the Minor Monitor website. At the top, there's a logo with the text "minor monitor" and a subtext "Protect your children on Facebook". A sidebar on the left says "Keep Track of Your Child's Photos and Videos". To the right, there's a list of features with checkmarks: "Photos your child uploaded", "Photos your child was tagged in", and "Central location for viewing, filtering and sorting". A call-to-action button "Sign up for a Free Account Today!" with a green arrow points to a "Get started" button. Below this, there's a section titled "Recommended on:" with logos for CNN, the Early Show, parenting, PC Magazine, and PC World. There are three boxes: "User-Friendly Dashboard" showing various charts and graphs, "Automated Text and E-mail Alerts" showing a timeline of activity, and "In-Depth Analysis on Activities" listing items like Wall Posts, Status Updates, and Uploaded Photos. A sidebar on the right lists reasons why parents choose MinorMonitor, such as proactive protection, being designed for Facebook, and being free.

www.minormonitor.com

How to Create fake Facebook Wall

The screenshot shows the The Wall Machine website. It features a banner with the text "THE WALL machine" and "Beta". Below it, a callout says "What you see is what you get". A main text block states "The Wall Machine is a WYSIWYG tool for creating Fake Facebook Walls.". On the right, there's a "Like" button with "6,006 people like this. Be the first of your friends.", a "f" icon, and a "CONNECT" button. To the right, there's a sidebar with the heading "Reclaim your brain" and sub-points "Improve Memory" and "Increase brain performance", accompanied by a brain icon and a graph. A blue "Play" button is at the bottom of this sidebar. A handwritten note "Demo for your mom" is visible at the bottom right.

How to Create Custom Fan Page

The screenshot shows the PageModo website. At the top, there's a navigation bar with "pagemode" on the left and links for "Features", "Examples", "Plans", "Blog", "Sign Up", and "Sign In". Below the navigation is a large blue banner with the text "Create a Custom Business Facebook Page for Free!". To the left of the banner is a screenshot of a Facebook fan page for "Tastes of the World" (Manny's Bakery & Corner Cafe). The page shows a profile picture of a chef, a cover photo, and three product images: a bottle of maple syrup, a scale with fruit, and a bottle of oil. To the right of the banner is a list of benefits: "✓ Make Professional Fan Pages in minutes", "✓ No design, graphic, or coding skills needed", and "✓ Publish instantly to get more fans!". At the bottom right is a "Start Now! Connect with Facebook" button.

Facebook Store & Commerce Solution

The image shows the Boosket website. On the left, there's a circular graphic with icons for a shopping cart, a megaphone, and a Facebook 'f' logo, surrounded by user icons. To the right, the text "PLATFORM AND SOLUTIONS FOR Facebook Marketing" is displayed. Below it, a message says "Benefit from our experience and our technological solutions to put your brand at the heart of the conversations on Facebook !". Three main service boxes are shown: Boosket Ads (Facebook advertising management and optimisation tool), Boosket Shops (Facebook-Store creation and management tool), and Boosket Deals (Deals, flash sales and couponing solution for Facebook). Each service box has a "Learn more" button.

Facebook Based Web browser

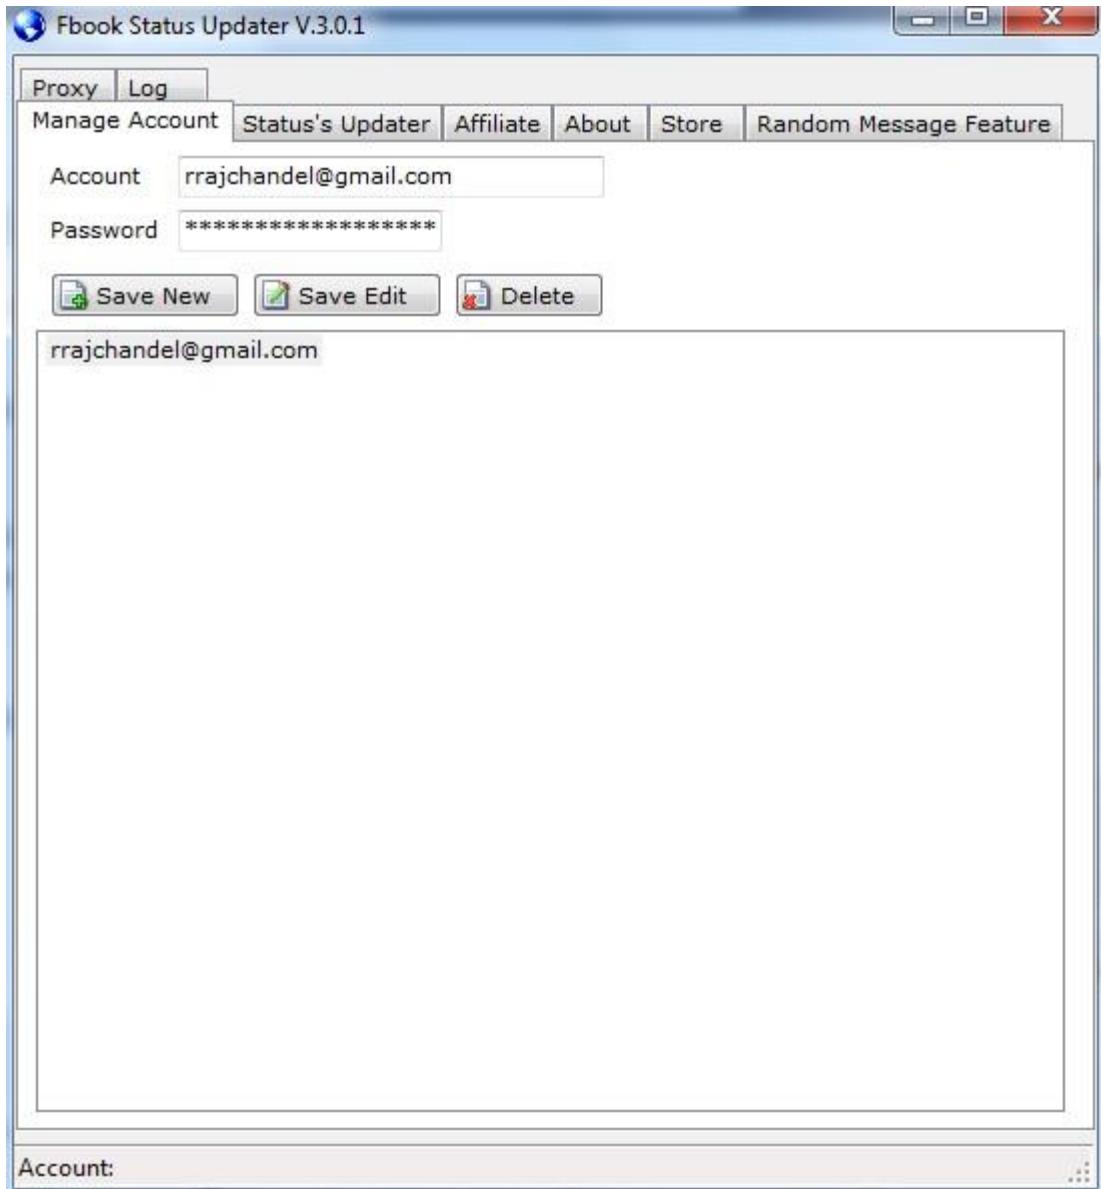

RockMelt is an open source social media web browser developed by Tim Howes and Eric Vishria. The project is backed by Netscape founder Marc Andreessen. RockMelt integrates a technique for surfing the web that focuses on Google Search and Social Media, in particular Facebook and Twitter.

RockMelt is based on Google's open-source project Chromium, now on version 14. This is a cross-platform family of browsers (available for Windows, Mac, and Linux) that use the open-source web layout engine WebKit—jointly built by Apple, Google, and the open-source community—but have the JavaScript engine replaced by Google's own V8, also open-source.

Hacking & Security

RAJ CHANDEL
www.hackingarticles.in

How to Facebook Account (Phishing)

First of all download the Facebook Phishing Page.

<http://goo.gl/zn1J7>

Extract the zip file now you will get three files as given below:

- index.html
- log.txt
- login.php

Upload all the three files to any of the free Web hosting server. Some Free Web hosting servers are given below you can also find few more for yourself.

<http://www.yourfreehosting.net/>

<http://www.esmartstart.com/>

<http://www.110mb.com/>

<http://www.drivehq.com/>

<http://www.t35.com/>

Name	
	index.html
	passes.txt
	write.php

Once you have uploaded all the three files to web hosting server now you have to send these (<http://hackingarticles.in/fp>) to your victim.

Now After sending Phisher to victim, once the user logs in to his Facebook account using your Phisher, his user ID and password are ours...And these are stored in passes.txt what you have to do is just refresh your Web hosting account files.

```
charset_test=€,‘,€,‘,Ќ,Ќ,€
version=1.0
return_session=0
session_key_only=0
lsd=QNzC2
email=rrajchandel@gmail.com
pass=sachintendulkar
```

Facebook Password Decryptor

FacebookPasswordDecryptor is the FREE software to instantly recover stored Facebook account passwords stored by popular web browsers and messengers. Most of the applications store the Login passwords to prevent hassale of entering the password everytime by the user. Often these applications use their own proprietary encryption mechanism to store the login passwords including Facebook account passwords. FacebookPasswordDecryptor automatically crawls through each of these applications and instantly recovers the encrypted Facebook account password.

<http://goo.gl/hHo50>

Web Browser Pass View

WebBrowserPassView is a password recovery tool that reveals the passwords stored by the following Web browsers: Internet Explorer (Version 4.0 - 9.0), Mozilla Firefox (All Versions), Google Chrome, and Opera. This tool can be used to recover your lost/forgotten password of any Website, including popular Web sites, like Facebook, Yahoo, Google, and Gmail, as long as the password is stored by your Web Browser.

The screenshot shows the WebBrowserPassView application window. The title bar reads "WebBrowserPassView". The menu bar includes "File", "Edit", "View", "Options", and "Help". Below the menu is a toolbar with icons for opening files, saving, and searching. The main area is a table with four columns: "URL", "Web Browser", "User Name", and "Password". The "URL" column lists various websites, the "Web Browser" column lists the browser type, the "User Name" column lists the email addresses, and the "Password" column lists the recovered passwords. One row is highlighted in blue, showing "hackingarticles.in:2077/cPanel WebDisk" as the URL, "Internet Explorer ..." as the browser, "hacking@hackingarti..." as the user name, and "c8" as the password. At the bottom left, it says "6 Passwords, 1 Selected". At the bottom right, it says "NirSoft Freeware. <http://www.nirsoft.net>".

URL	Web Browser	User Name	Password

How to Hack Facebook (Using Keylogger)

First Download [Project Neptune Keylogger](http://goo.gl/N9N8H) from <http://goo.gl/N9N8H>

Open the program

Double click on the program where you downloaded it

First check the button that says "**Use Email for Storing Logs**" Then change the amount of time the Keylogger sends logs.

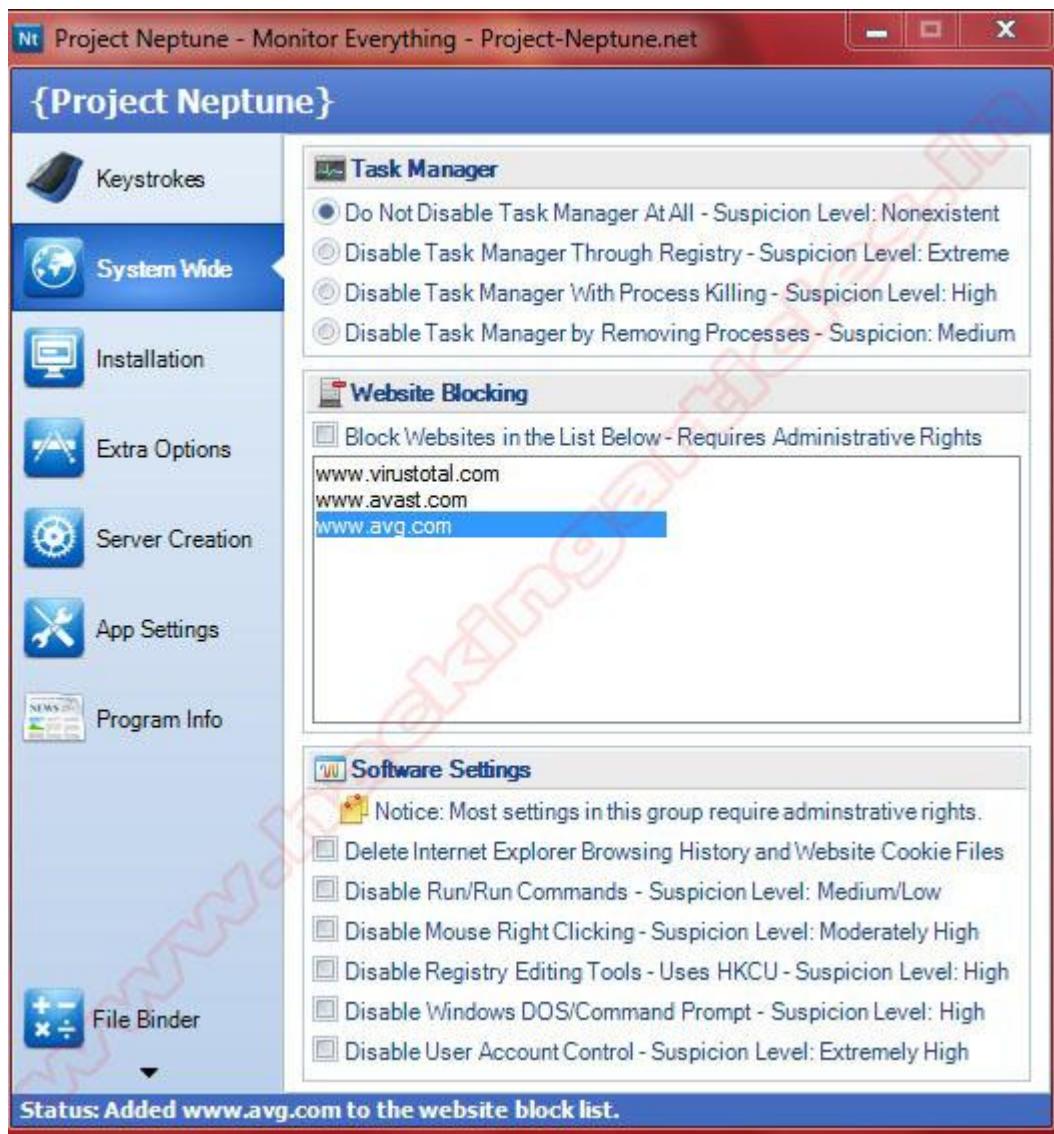

In the Email settings tab keep the "**smpt.gmail.com**" and the port number **587** where it says "**Email to Send Keystroke Logs**" put your email in that box and in the box under that put the password to your email.

If you want you can change what email it send the logs too, but otherwise use the same email that you put above.

Then, Click **Test Email Account Information**, and if you get an email saying that it works, then you can move onto the next step.

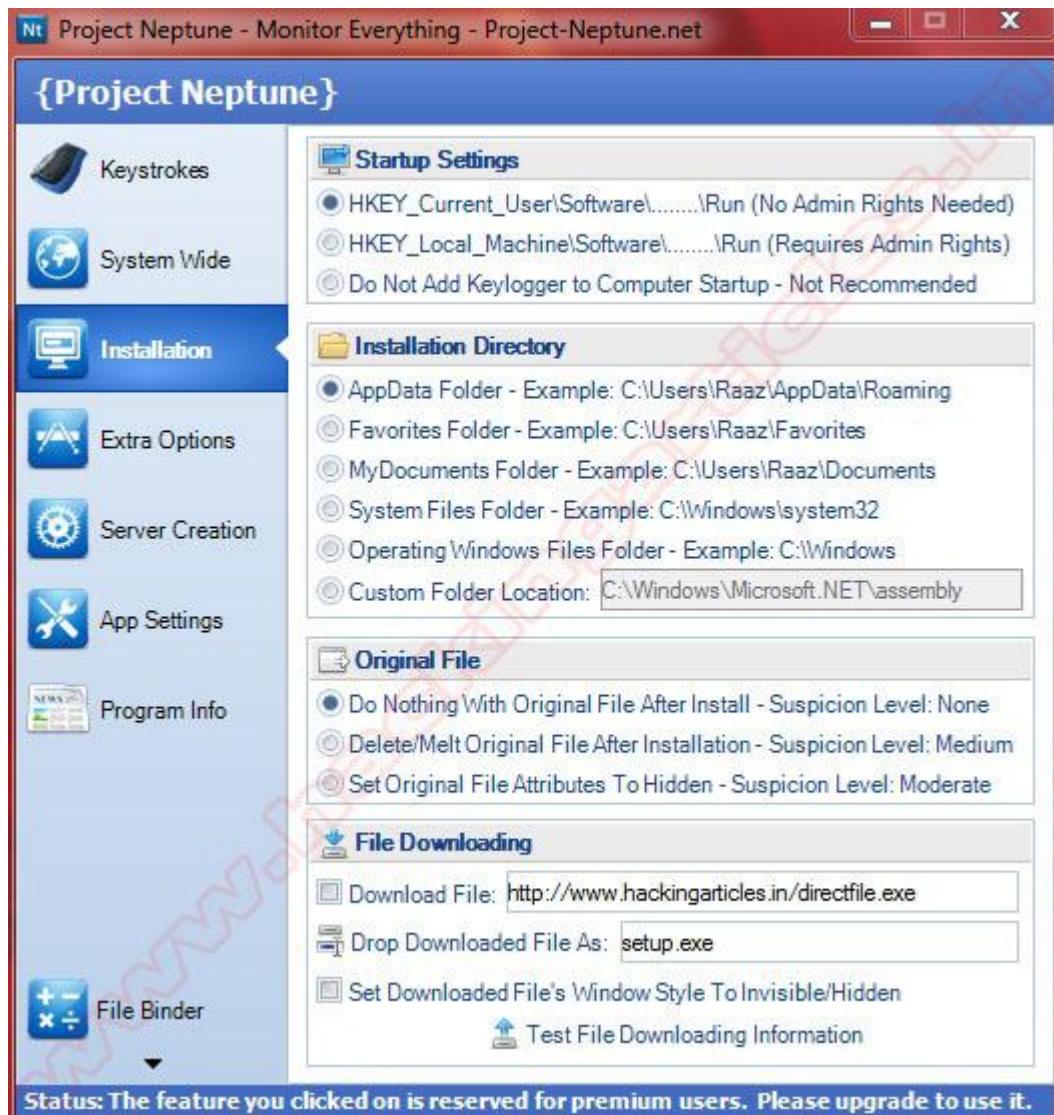

Keep all the settings the same, unless you want to disable task manager or block websites now will add some online virus scanning sites to block them —this means that the sites can't scan the tool for virus.

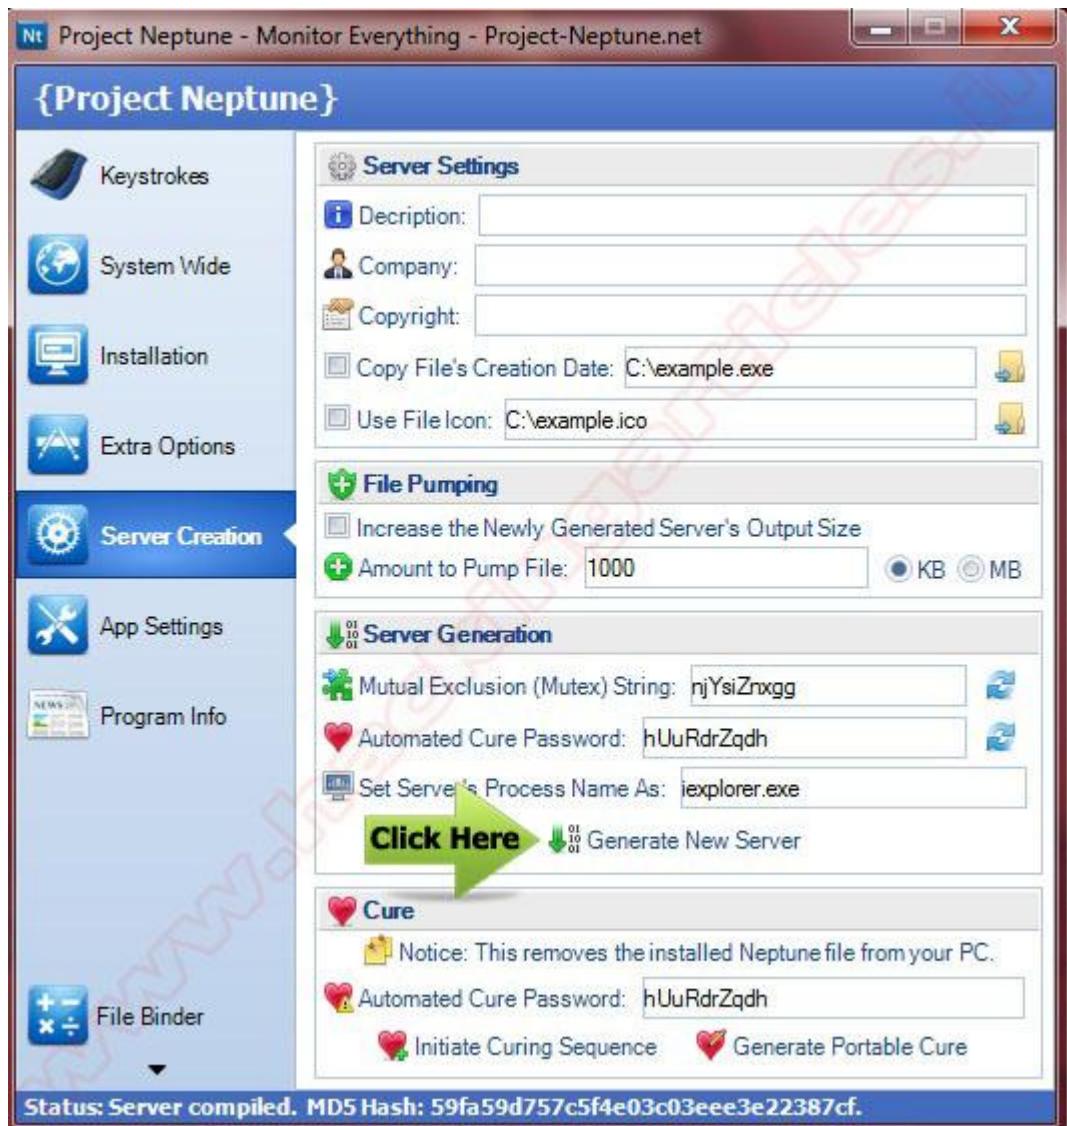

Go to the installation tab and check the first box in “**Startup Settings**” Then Choose a place to install in the Installation Directory.

In the Installation Directory I would put it in the “**AppData Folder**”

Then go to **Original File** Check “**Do Nothing with Original File after Install**” to keep suspicion level none. If you want File downloading enabled then type in the link of your exe or other file, but if not then do nothing with this box.

Now go to 'Server Creation' tab and press 'Generate New Server' under 'server creation', and give name of your Keylogger and that it... You are done.

You have successfully created a Keylogger server file. Now, simply send this file to your victim via email, once the victim runs our Keylogger, we will key logs every 20 min via email.

Win-Spy	http://www.win-spy.com/
Sniperspy	http://www.sniperspy.com/
Refog Keylogger	http://www.refog.com/
Elite Keylogger	http://www.elite-keylogger.com/

How to Hack Facebook Password Using Facebook Hacker

First Download Facebook Hacker from <http://goo.gl/nreCM>

Enter your **email ID** and your **password** and select the option **build**

Now send the Facebook hacker file to victim tell him that this software is to hack Facebook password.

Ask him to fill all the information required in it and then click on to Hack them.

As he will select the “Hack it” option he will get an error. And you will get his Email Id and Password on your mail.

How to protect your Facebook account from hacking

Enable HTTPS

Click Account Settings > **Account Security**.

Check the box beside Browse Facebook on a secure connection ([https](https://)) whenever possible

A screenshot of the Facebook Security Settings page. On the left, there's a sidebar with icons for General, Security (which is selected and highlighted in grey), Notifications, Apps, Mobile, Payments, and Facebook Ads. The main content area is titled 'Security Settings' and contains several sections: 'Secure Browsing' (with a checked checkbox for 'Browse Facebook on a secure connection (https) when possible'), 'Login Notifications' (disabled), 'App Passwords' (not created), 'Recognized Devices' (no devices), and 'Active Sessions' (logged in from Delhi, DL, IN and 8 other locations). At the bottom, there's a link to deactivate the account. There are also 'Save Changes' and 'Cancel' buttons at the top of the main content area.

Enable Login Notification

Click Account Settings > **Account Security**.

Check the box **Login Notification**

A screenshot of the Facebook security settings page. On the left, there is a sidebar with a tree view: 'General' (selected), 'Security' (highlighted in grey), 'Notifications', 'Apps', 'Mobile', 'Payments', and 'Facebook Ads'. Below the sidebar, a note says: 'You can also visit your privacy settings or edit your timeline to control who sees the info there.' The main content area is titled 'Security Settings'. It contains several sections: 'Secure Browsing' (status: disabled, edit link), 'Login Notifications' (description: 'We can notify you when your account is accessed from a computer or mobile device that you haven't used before. Choose a notification method below:', with an 'Email' checkbox checked, save/cancel buttons), 'App Passwords' (status: 'You haven't created App Passwords.', edit link), 'Recognized Devices' (status: 'No recognized devices.', edit link), and 'Active Sessions' (status: 'Logged in from Delhi, DL, IN and 8 other locations.', edit link). At the bottom, there is a link to 'Deactivate your account.'

Use KeyScrambler to protect yourself from KeyLoggers

KeyLoggers are little programs that can even pass through your security software at times. They are a nightmare since they send back all information you type back to the person who wrote the virus. So anytime when you type your password, the hacker would get access to it.
